CONGRESSIONAL.

Senate.

WASHINGTON July 1st. [illegible] back the House joint resolution [illegible] silver coin, and recommended that [illegible] in the House amendments to the [illegible], and asked for a committee of [illegible] ordered. [illegible] up the resolution in regard to the [illegible] of Pinchback late contestant from [illegible] arose pending which the [illegible] and Windom called up the [illegible] being sundry civil appropriation.

[illegible] the conference committee on the [illegible] bill reported that the committee [illegible] unable to agree and moved that [illegible] be appointed. He said the [illegible] statement in the committee was [illegible] to the third section of the bill [illegible] for the abolition of the Indian [illegible] transfer of the management to the [illegible]. The House conferees insisted [illegible] and the Senate conferees did not [illegible] to consent thereto. The motion was [illegible] the chairman announced as the [illegible] committee on the joint resolution for [illegible] silver coin reported from the committee [illegible] Boutwell and Bogy. [illegible] then proceeded with the consideration [illegible] sundry civil appropriation bill [illegible] were agreed to among them the [illegible] providing $20 000 for preparing [illegible] maps and charts of the geographical [illegible] of the one hundredth meridian [illegible] the appropriations for the care of military [illegible] from $60,000 to $80 000. [illegible] from conference committee on the bill [illegible] extending the collection of taxes [illegible] of the government of the District of [illegible] made a report which was agreed to [illegible] is the same as passed by the [illegible] up the House bill to authorize the [illegible] of Indian Affairs to purchase supplies [illegible] Bureau in open market. Passed. [illegible] to take up House joint resolution [illegible] to employes of the Government and also to all employes in all the departments of the Government to attend the Centennial Exposition at Philadelphia.

Sherman Sargent Logan and Morton spoke against the motion and it was rejected.

The Chair laid before the Senate House joint resolution providing for the meeting of Congress in Independence Hall Philadelphia Tuesday July 4th at 10 o'clock A M.

Logan objected to the present consideration of the resolution and it was laid over.

Windom Logan and Caperton were appointed members of the new conference committee on the Indian appropriation bill.

The Chair laid before the Senate a message from the President returning to the Senate without his approval the memorial of the National Board of Trade in session in New York City praying that silver coin shall not be made legal tender for larger sums than $5. Referred to committee on finance.

Consideration of the joint resolution in regard to Pinchback's compensation was resumed and Bay and took the floor but before proceeding with his remarks yielded to Sargent upon whose motion the Senate went into executive session and when the doors were reopened the Senate adjourned until Monday.

House.

Randall chairman of appropriation committee reported a bill authorizing the commissioner of Indian affairs to purchase such supplies as are required for the immediate use of the Indian tribes to an extent not exceeding $150 000 until the regular appropriation bill shall be passed. Randall reported that the conferees on the legislative appropriation bill had been unable to agree and asked for another conference. He stated the difference was in regard to the second section which provides for the salaries of the employes of the government. That was as far as the committee had gone. The money difference between the two houses was $1 700 000. A long discussion ensued of a political nature, and finally it was agreed that a new conference committee be appointed consisting of Randall Singleton and Foster.

Seelye said he proposed to offer a resolution declaring it to be the sense of the House that the conference committee on appropriation bills should seek an agreement on matters conforming to existing laws and should leave the matter of new legislation for secondary consideration.

Stephens, from committee on Centennial celebration reported a joint resolution providing that the two Houses of Congress will meet in joint convention at Independence Hall in Philadelphia on the 4th of July at 9 A M for the purpose of passing appropriate resolutions commemorative of the great event which in that same hall, one hundred years ago brought this nation into being. Agreed to without division.

Neal, from committee on bill to regulate assessment and collection of taxes in the District of Columbia reported that the committee of conference had come to an agreement, the House receding from its disagreement to Senate amendment and agreeing thereto, with various minor amendments. Report adopted. Adjourned till Monday.

WASHINGTON CITY.

Hawaiian Treaty.

WASHINGTON July 1.—The reference of the Hawaiian treaty bill to the finance committee yesterday immediately after it was reported back to the Senate favorably from the foreign relations committee was accomplished by a motion quietly made by one of its enemies in the Senate with the purpose of unfairly and unnecessarily delaying and perhaps defeating the measure by consuming valuable time; Sargent discovered the trick in season to make a motion to reconsider the reference and when this privileged motion is called up the bill can be directly brought before the Senate for action. Thus the manœuver against the bill has resulted to its advantage.

The Chinese Question.

The certain extension of the session secured by the joint resolution to day concerning the appropriation bills improves the chances of obtaining action by the Senate on the Chinese question which Sargent will urge the moment these bills are out of the way. The refusal of the House to adopt Luttrell's recent resolution for the appointment of a committee to investigate the Chinese question during the recess of Congress does not indicate any weakness of the anti Chinese movement here but merely reflected the manifestly well grounded feeling that the House had already taken more efficient action on the subject by passing not only Piper's bill to enforce existing laws, but also Page's House resolution and joint resolution reported by Piper from the commerce committee requesting the President to negotiate for modification of the Burlingame treaty so as to provide a remedy for the evils of Mongolian immigration. Luttrell's resolution received only 37 votes.

Portland, Dalles and Salt Lake Railroad.

Mitchell's bill has been passed by the Senate to extend the time for the completion of the surveys and locations of the Portland Dalles and Salt Lake Railroad and its branches until April 14 1878.

Portland Custom House Not to be Removed.

At the instance of Mitchell the Secretary of the Treasury has revoked last month's order for the removal of the Portland custom house to the new building. It will accordingly remain in its present more convenient location.

The California Wine Bill.

No prospect of the passage this session of the bill prepared by the California Winegrowers Association, introduced last December by Luttrell for reduction of the tax on native brandy and the establishment of a bonded warehouse system for the benefit of fruit distillers. Argument before the ways and means committee in its explanation and advocacy was submitted too late to be efficacious this session.

Sargent Denies Yergain's Charges.

Sargent referring to remarks attributed to him by Yergain who was removed to day from charge of the Special Agency Division of the Internal Revenue Bureau denies he ever said there were no whisky frauds on the Pacific coast. He ridicules the idea that he would undertake to be consistent keeper for an entire community. What he did say was that although very probably there were some frauds committed there as well as elsewhere he did not believe upon the instigation of sixteen [illegible] of Phillips and Yergain that men like Vandyke and Sedgwick were rascals.

The *Herald's* Washington special says The truth is Yergain is a victim of the whisky thieves in the West. He was active and untiring in his investigations. When he had just returned from St. Louis with evidence of frauds implicating McDonald Joice and others before even any seizures were made Babcock went one day to a prominent treasury officer and asked him [illegible] that Yergain was not making himself too fresh in St. Louis whisky matters. Senator Spencer's hostility to Yergain is also supposed to come of his intimacy with Babcock. The *Herald* regards Yergain's removal as Grant's last blunder and thinks Republicans will have hard work to excuse it.

Contemplated Resignation of Governor Thompson.

Governor Thompson of Idaho writes here that on account of serious and continued ill health he contemplates resigning his office.

Relief of Huntington's Sureties.

Representative Lane got his bill through the House for relief of the sureties of J W P Huntington late superintendent of Indian Affairs from liability for $10 000 of government money lost on the steamship *Brother Jonathan*.

Anomalous Condition of Affairs at the Treasury.

WASHINGTON July 1.—A very remarkable condition of affairs exists at the treasury department to day. There is no secretary of the treasury nor assistant treasurer and the cash room has been closed since noon, no drafts having been paid since noon. Cameron it is found cannot legally assume the duties of secretary, the ten days in which an acting secretary may be in charge having expired for the reason that Conant since the resignation of Bristow ten days ago has been filling all the duties of the office and the law provides no farther for an acting appointment. Wyman has his bonds in every respect regular and complete except that they require the approval of the secretary of the treasury. As there is no such officer he cannot qualify. Gilfillan the newly appointed assistant secretary has not yet received his commission so just at this hour there is no officer in the department under whose authority any money can be expended. The first comptroller to day decided that the law would not permit Cameron to act as secretary. New who has not yet turned over the moneys of the government to his successor has assumed the responsibility of paying warrants [illegible] were found yesterday. Against all other payments however the cash room is closed and business for the time being is practically suspended. Cameron, Judge Taft and Secretary Taft have been in consultation with the President to day. It is believed the difficulty will be fully adjusted in an hour or two as it is thought Morrill will either qualify as secretary to day or that a new nomination be sent to the Senate without delay.

The Difficulty in the Treasury Temporarily Arranged.

The difficulty in the Treasury Department has [illegible] the President's [illegible] Treasurer [illegible] that his resignation is not accepted until after the appointment and qualification of his successor [illegible] Secretary [illegible] Bristow [illegible] and business will proceed [illegible] things created great excitement at the department to day [illegible] of affairs of the [illegible] that a [illegible] affairs [illegible] Secretary of the Treasury but no official authority was obtained.

Rumor of the Intended Resignation of Pratt.

A report has also been renewed that Commissioner Pratt would [illegible] his resignation. This grows out of the fact that the commissioner was very complimentary to Yergain in a [illegible] resignation and some of the friends of the commissioner were fearful lest the President would regard this as disrespectful to him.

Yergain's Office not to be Filled.

WASHINGTON July 1.—The office of chief of revenue agents vacant by removal of Yergain will not be filled. The duties of his position will hereafter be performed by the chief clerk and by the commissioner as was the case before Yergain was placed in charge of that corps.

Appeal in Behalf of Washington Monument.

WASHINGTON July 1.—Officers of Washington National Monument Society publish an appeal to ministers of the gospel [illegible] to introduce [illegible] some convenient day thereafter for the [illegible] the monument [illegible] and request contributions to be sent to J B H Smith treasurer Washington.

The Act to Provide for Government Expenses Signed.

WASHINGTON July 1.—The President to day signed the act to provide temporarily for the expenditures of government; also the naval appropriation bill.

Public Debt Statement.

WASHINGTON July 1.—The public debt statement shows reduction of $1 880 [illegible] for June. Coin balance [illegible] currency [illegible] coin certificates $28 681 400 special deposits [illegible] Outstanding legal tenders [illegible] Total reduction for the fiscal year ending to day [illegible] leaving the debt less cash in treasury [illegible]

Issue of Silver Coin.

The Senate finance committee voted to recommend that the Senate now concur on the joint resolution for the issue of silver coin. These amendments provide for the issue of twenty million dollars and for the reissue of trade silver dollars with the retention of the legal tender power.

The committee of conference on the Indian appropriation bill will report their inability to agree.

Post Office Appropriation Bill.

The committee of conference on the post office appropriation bill has agreed upon a report. They compromise on rates of compensation to postmasters. The pay for railroad transportation is reduced ten per cent below the present rate and a commission is provided to take the subject into consideration and report at the next session. Third class mail matter, transient newspapers, magazines, pamphlets, books and all printed matter except circulars to pay one cent for every two ounces.

Relief for Gen. Jno. Sutter.

WASHINGTON July 2.—The House private land claims committee have voted to recommend the passage of a bill appropriating $50 000 for the relief of Gen John Sutter in consideration of his services to early California immigrants, his losses of personal property for want of legal protection and his equities in the Sobrante grant confirmed by the lower tribunal, but denied by the United States supreme court decision. This sum is to be in full satisfaction of his claim for lands and all other claims for losses or service.

Amendments Agreed to.

The Senate has agreed to the amendments appropriating $40 000 for surveying public lands in California, $40 000 for Oregon, $15 000 for Nevada, $14 000 for Washington Territory, also $5 000 for the incidental expenses of the office of the surveyor general of California and from $4 000 to $5 000 to each of the other Pacific States and Territories.

The Servians to be Declared Rebels.

VIENNA July 1.—Several of the evening journals here state that Turkey is about to issue a circular to the Great Powers throwing the entire responsibility upon Servia and declaring Prince Milan a rebel because he receded from the union of vassals.

Servian Manifesto.

Following is a telegraphic extract from the Servian manifesto. It commenced by describing the insupportable condition in which Servia has been placed since the outbreak of the insurrection, and continues: Servia has done nothing whatever to hinder the work of pacification whilst on the other hand, Turkey has surrounded Servia with a belt of iron. It is impossible therefore to remain longer within the bounds of moderation and the Porte is responsible for any eventual bloodshed. The Montenegrins will be on our side and it will not be long before the Herzegovinians, Bosnians, Bulgarians and Greeks co operate with us. Prince Milan concluded his manifesto by exhorting the troops to respect the friendship of Austria which he says has a claim upon their gratitude because of the benevolent protection extended to the Herzegovinian people.

Hostilities Commenced.

BERLIN July 1.—It is believed here that Servian troops will commence hostilities by crossing the frontier to morrow.

PARIS, July 1.—*Le Temps* has a telegraphic dispatch from Vienna which says the Servians crossed the frontier on Friday.

Prince Milan's Proclamation.

VIENNA July 1.—Prince Milan, in his proclamation says Turkey has provoked war by not satisfying Bosnia and by threatening Servia. We enter Bosnia in the cause of humanity and nationality and to re establish peace without offending Turkey's integrity. The proclamation mentions Austria thankfully for her efforts to protect Christians.

The war manifesto of Milan was promulgated Saturday and a state of siege is proclaimed throughout Servia. The manifesto says the Prince is animated by ideas of moderation. He offered to send an envoy to come to an understanding. But the Porte ignored the conciliatory offer and continued to send fresh troops. Hence it was necessary to enter the insurgent country in order to pacify it and [illegible] principles of justice and [illegible] with [illegible] distinction of religion and [illegible] to respect the integrity of the Ottoman empire. A proclamation will shortly be issued informing the Bosnians of the approaching appointment of new officials throughout the country in the name of Prince Milan. A special envoy goes to Athens from Belgrade shortly. The Turkish army which has been stationed at Gatzko is now concentrating at Mostar.

PARIS July 2.—The *Journal des Debats* has a special telegram from Belgrade which says a council of war was recently held at Alexinatz at which it was decided to open hostilities on the 4th of July. The *Des Debats* also denies that Prince Vladimir is in Servia.

French Squadron for the Levant.

LONDON July 1.—Vaughan accepts the challenge of O'Leary for a 24 hour walking match but declines a six days match as he has never had an opportunity to test his capabilities to that extent. He prefers to walk in England.

Breadstuffs.

LIVERPOOL July 1.—The stock of breadstuffs on hand is as follows: Wheat [illegible] quarters [illegible] mixed 17 000 flour extra [illegible] barrels [illegible] sacks.

Death of a Member of Parliament.

The Three Powers will not Interfere after all.

Unfounded Report.

RAGUSA July 2.—The statement that the Prince of Montenegro has been proclaimed Prince of Herzegovina by the insurgent leaders is unfounded. The leaders at a recent meeting merely undertook to propose the Prince if he occupied Herzegovina. The insurgents are concentrating at Barjani where a force of 7 000 is being formed.

Various conflicting statements are afloat concerning the date when the Servians propose to commence hostilities.

TO WHAT EXTENT IS SILVER COIN RECEIVABLE FOR TAXES?

TO THE EDITOR OF THE OREGONIAN

I intended my note of yesterday for your "Notes and Queries" column hoping thereby to get an answer. But as it did not appear there, I suppose I may not look for one. Owing to the depreciation in value of silver coin the question of whether or not our taxes are payable in such coin, is likely to become an important one to the large taxpayer, who can make a considerable saving by buying silver coin at current rate of discount, if he is entitled to pay the same for taxes. To the small taxpayer it is of little or less importance. The practice of tax collectors heretofore has been to receive all silver offered, but there has heretofore been no difference in current value between silver and gold. The law declares taxes shall be paid in "gold and silver coin of the United States." The law of the United States makes gold coin a legal tender in unlimited amount and silver coin in amounts of five dollars in any one transaction. Silver coin seems to have been designed only for use as change and hence but $5 allowed to be paid at one time. Then, is a note or contract payable in "gold and silver coin" payable in silver coin to a greater amount than five dollars? It seems to me not, and that the legal construction of our statute requiring taxes to be paid in "gold and silver coin" is that only five dollars in silver is payable upon any individual's tax. I do not see that any different construction can be placed upon the statute than upon private contract, expressed in the same language. PEOPLE

AN OPPORTUNITY.

AN OPEN LETTER TO THE PEOPLE OF OREGON ON A VERY IMPORTANT SUBJECT

PHILADELPHIA, June 21, 1876

Gentlemen—An Industrial Fair of the Mechanics Institute will be held in the city of San Francisco commencing August 8, 1876. Thousands of foreigners who are now at the Centennial examining the wonderful productions of our coast, will visit San Francisco at that time. Would it not be well to have some of the choicest productions of our State such as green fruits, vegetables, grain, wool, etc, etc, in small quantities on exhibition in the Bay City at that time?

I have secured of the secretary, Mr J H Culver ten by twenty feet of floor space in the building for the State of Oregon, and hope our people will not fail to see it creditably filled.

The expense would be but trifling, as I am confident the liberality towards improvements in our State manifested by Mr Villard, president of the O S S Co would secure a pass and free transportation for all material sent forward and a little personal effort on the part of a few of our citizens would at this particular time result most favorably to the interests of our State. By actual comparison of material Oregon is second to no other State or country and if our people are not penny wise and pound foolish the depression in the price of real estate and stagnation that has prevailed other business for the last three years will soon be removed from our State.

We learn that at that place the stage met a wagon and in passing, the horses became frightened and stood pulling the wheels of the stage over a tree supporting a telegraph pole which caused it to upset. Although there were several passengers no one was hurt except the driver, Louis B Tucker who was badly bruised and severely injured. The tongue was broken and the stage otherwise injured.

A correspondent writing from Swan Lake, under date of June [illegible] sends the *Times* the following items: Sagebrush cattle men are now busily engaged in collecting their scattered stock. I think last winter's loss was as great as during the hard winter of two years ago. The 17th and 18th of this month were the warmest days in the memory of the oldest inhabitant in this country—the mercury indicating 102 in the shade at Clear Lake.

Crops about the North Yamhill section and Moore's Valley is—well beautiful to behold. A heavy crop there, sure.

PACIFIC COAST NEWS.

CALIFORNIA.

Centennial Celebration in San Francisco.

SAN FRANCISCO July 1.—The Centennial fever is now running high and the city has been pretty much given up all day to preparations. The principal streets are now a perfect wilderness of bunting, and evergreen and every device has been exhausted in varying the combinations of red white and blue. Interest appears to center in the bombardment to come off Monday. The Raymond Street Railway Co is preparing to put on all their available cars on the Sutter street line for the transportation of the crowd to the Presidio and vicinity. Steamers have been chartered to convey sightseers to the opposite side of the bay and the hills back of Saucelito will doubtless be crowded with spectators. The programme of firing issued from military headquarters shows that about 150 heavy shot and shell will be fired from the land batteries to which must be added the broadsides of war vessels. The monitors came down from Mare Island to day and the *Portsmouth*, *Jamestown*, *Pensacola* and *Saco* have been put in condition for the work assigned them. The time of firing has been so arranged as not to interfere with the Master Mariners' regatta, which takes place in the afternoon. Numerous excursion steamers have been chartered to enable those who prefer to view the scene from the Bay to do so. Details of the procession for the 4th have been carefully arranged that no hitch may occur in that part of the celebration. Extra precautions have been taken to avoid danger from fire, inseparable from the universal use of explosives, which the authorities recognize the futility of endeavoring to prohibit except to a limited extent. The streets all this afternoon have been thronged with crowds admiring the display and business has been almost at a standstill.

SAN FRANCISCO, July 2.—The city to-day is virtually given up to sightseeing. The streets are thronged with people admiring the decorative display, to which additions are being hourly made. The adjournment of the stock boards makes California street look apparently deserted so far as business is concerned, though there is the usual congregation of people to be seen there.

Impressive Centennial services were held this morning at Sutter-street synagogue, attended by a great concourse of people which filled the edifice to overflowing. Similar service was also held at Masonic synagogue. But very little business going on in any department. The principal streets are literally veiled in flags large and small, and the buildings, public and private, draped with every imaginable device. No beginning has yet been made on the decoration of Palace hotel, and it looks as though no attempt was to be made in that direction.

SAN FRANCISCO July 2.—The streets all day have presented more the appearance of a general holiday than of Sunday, being thronged with promenaders from the city front to the western addition. Numerous excursion steamers have been running all the day visiting the war vessels in the harbor and points of interest. The ships in port display unusual amount of bunting, and decoration of streets and buildings seems general throughout the city, instead of being confined to the principal streets as usual. Centennial services have been held in many churches, which have been largely attended.

A number of alarms of fire were struck during the day, but no case of serious damage followed.

The weather is cool and bright, with a pretty stiff breeze.

New Water Rates.

The order establishing water rates under the Roach act has been signed by the mayor, and the clerk has notified the Spring Valley Water Company of the fact. The order went into effect to day, but there is no doubt the company will resist the attempt to enforce its provisions.

Democratic Ratification Meetings.

SAN FRANCISCO July 1.—The Democracy this evening ratified the St. Louis nominations at Platt's Hall under the auspices of the Young Men's Democratic Club, J B Weller, Jr, presiding. The meeting was fair in point of numbers and very enthusiastic. Every mention of the names of the nominees was greeted with long and loud applause. Ex-Gov Haight was the first speaker, followed by Mayor Bryant, Stewart M Taylor, J C Shorb, Gov Irwin, Judge Ferrall and others. The remarks of all the speakers were much to the same effect, scoring the corruption in the public service and holding the Democracy under the leadership of Tilden as the only reform party. Passing reference was made to the Chinese, claiming the anti coolie movement as a Democratic measure. The financial question was quietly ignored by all the speakers except Mayor Bryant, who simply claimed that the Republicans had done nothing to bring about resumption. Hayes was respectfully referred to as an excellent gentleman without any record, whose strength lay in his obscurity. Gov Irwin varied the character of the speeches somewhat by asserting in effect that he did not deny the Republican party had had a mission to perform for the discharge of which it was entitled to due honor, which declaration was greeted with silence. Otherwise the speakers were enthusiastically received and interrupted by frequent applause.

SANTA ROSA July 1.—A battery of guns, furnished by Col Peter Donahue, is now firing a salute and speakers are standing in front of the court house addressing a large and enthusiastic audience. Addresses by Judge G. A. Johnson, Judge Burckhalter, Hon Walter Ferral and others. The town is illuminated and bonfires are burning.

SAN BUENAVENTURA, July 2.—The Democrats held a grand ratification meeting and torchlight procession last night in honor of the nomination of Tilden and Hendricks. Much enthusiasm was manifested.

Flutter Among U. S. Salary Drawers.

Considerable flutter has been occasioned in the various departments of the U S government in the city on account of the possible results of the failure to pass the appropriation bills. It is reported that the officers have been advised of the probability of serious inconvenience in the postoffice, internal revenue office, U S marshals and other bureaus, unless some conclusion can be reached at an early day. A temporary measure of relief is offered by the action of Congress yesterday which bridges the difficulty for a few days after which the outlook is said to be somewhat dubious.

The Office of Supervisor of Internal Revenue Discontinued.

Orders have been received to discontinue the office of Supervisor of Internal Revenue, and all attaches and employes have been discharged. The books, papers and other property of the office have been packed up for storage and the conduct of the business of the department delegated to Special Agents Clarke and Crane. The removal of H T Yergain, chief of the special agency service of the Treasury, announced in the overland dispatches this morning, is considered by those well qualified to form an opinion as a hard blow at the investigations of the revenue frauds now being pushed on this coast. Yergain was one of the oldest and most efficient officers in the service. He was selected by Bristow to work up the St Louis whisky frauds and was the prime mover in the onslaught which resulted in breaking up the ring there and punishing the members. He was afterwards placed at the head of the division where he was largely instrumental in pushing the warfare on the Chicago ring. His removal gives great satisfaction in ring circles here as ridding them of an active and uncompromising enemy.

Trotting at Bay District Track.

The trotting race, three in five to harness, yesterday at Bay District track between Chicago, Mary Davis, George Treat and Direco resulted as follows: Treat took the first heat in 2 33½ and Chicago the next three in 2 28½, 2 32 and 2 32, respectively.

Fatal Accident.

C J Lehing, proprietor of a gun store, was shot in the head last night, while showing a boy named Henry Westphall how to work a revolver he had just bought. The wound is probably fatal. Westphall was locked up pending the result.

Fatal Fall.

Mr Fullivan a beggar man, fell down the stairway of the Cisco house, Commercial street, last night and broke his neck.

Fatal Affray.

Last night two men got into a dispute in Doyle's saloon corner Geary and Cemetery avenue during which one stabbed the other in the abdomen, inflicting a fatal wound. The police have not been able to arrest the murderer, who is hiding in the brush in the vicinity.

Miners' Strike.

A telegram was received by a California street operator yesterday that the miners in Golden Chariot mine, in Idaho struck on Friday for non payment of wages. They took the superintendent, Baldwin, prisoner, and assert their intention of holding him until paid.

Preparations for the Centennial.

SANTA CRUZ, July 2.—People continue to arrive in great crowds. The late train yesterday brought 150. Bunker, proprietor of the *Stock Report*, the president of the stock board, and several prominent San Francisco gentlemen are here. There is nothing talked of but the Centennial celebration on Tuesday.

SANTA CRUZ, July 1.—Great preparations are being made for the celebration on Tuesday. People are very enthusiastic this year for a general celebration. A procession will take place, a historical sketch of the town will be delivered, an address and the Declaration of Independence will be read. The city is already being decorated with flags. Weather fine. People are coming in great numbers; nearly 400 arrived by rail and steamer yesterday and to day.

Death from Sunstroke.

SMARTSVILLE, July 2.—Ed Larkin died from sunstroke yesterday. Two other cases are reported to have occurred. Weather very warm.

NEVADA.

Drowned.

CARSON, July 1.—A young man named Smith was drowned this morning in Carson river near Genoa. He was about 25 years of age and has a brother in Virginia and parents in Utah.

Preparing to Celebrate.

Extensive preparations are being made here to celebrate the 4th. All places of business will be closed on Monday and Tuesday. Weather extremely hot.

Fatal Mining Accident.

GOLD HILL, July 1.—Between 12 and 1 o'clock this morning a fatal accident occurred at Rock Island mine, by which one man was instantly killed and another severely injured. John H Parkinson, chief engineer, accompanied by a miner named John Prout, started to come up on the north tank. Three bells were sounded to notify the engineer that there were men aboard. Just before the cage reached the head of the shaft the [illegible] shut off steam. An attempt to put on the brake discovered that the brake bar had been thrown out, and its guide [illegible] down to fix it. At that moment the cage, with the two men, appeared above the mouth of the shaft. Parkinson saw something was wrong and called to Clarke, the engineer, to reverse his engine. This excited Clarke to such a degree that he was unable to do anything, and the cage, with tank and men, passed on up. The guide Prout's head was crushed between the cable and pulley wheel. Parkinson's arm was around the cable and was caught between the pulley and Prout's head, where it was held for more than half an hour. Prout was instantly killed, and Parkinson's arm terribly bruised and mashed. Prout was a native of Cornwall, England, and was aged 27 years.

Two men, Miller and White were last week examined at Jacksonville, before J. H. Stinson, J P, on a charge of having shot a Chinaman, and were held to answer before the next grand jury in the sum of $500 each. They gave the required bail and are now at liberty.

At a business meeting of the Christian Church it was definitely decided to permanently locate the annual campmeeting grounds at Dallas. A board of trustees was elected, consisting of A W. Lucas, R S Crystal, T B Newman, J M Campbell and I Levens, to whom the campgrounds are to be deeded.

Last Sabbath, during the absence of the family, the residence of Mr G C Turner in the forks of the Santiam, was burglariously entered, trunks and closets broken open, and a quantity of clothing and other articles carried off. The thieves were tracked some distance and it is thought that enough is known to warrant the arrest of certain parties.

Arthur Green a lad about fifteen years old, son of Mrs Simpson of Roseburg met with a severe accident last Sunday while on his way to church some six miles east of there, near the residence of Joseph McLaughlin. Young Green was testing the speed of his animal when it fell tearing his boot off and crushing his ankle and foot in a terrible manner.

The Lafayette *Courier* says: Last Monday evening as Mr Wordle was returning home from Lafayette he was overtaken by Jack Helias a neighbor who after a quarrel with the old gent beat him (Wordle) in a shocking manner. This quarrel originated from the dogging of some hogs of Wordle's who were trespassing upon the premises of Helias.

The Lafayette *Courier* says: After considerable buzzing to find out who the first white settler of Yamhill county was, we are of the opinion that it was Louis Labonte, who settled on the Willamette river. He came here in 1833. Probably the oldest inhabitant of the country at the present time and [illegible] occupies his original land claim is Sidney Smith, of Chehalem valley, who came in the year 1839. There are many who settled here in 1843 and we might say, legions who came in 1845.

The Eugene *Journal* says: "On Wednesday last Messrs Stevens and Lemley delivered to Sheriff Eakin a man named T D Luce whom they had overtaken near Camp Polk, and who had in his possession a horse belonging to a Mr Stevens and one to a Mr. Hinton, also the articles stolen from the store of A G Hovey, of Springfield, spoken of in our last issue. He had his examination Thursday morning before Justice Brown, and was held in the sum of $2,000, failing in which, he was committed to jail to await the next term of the circuit court. The following described property was also found in his possession which is supposed to be stolen property and is now in the hands of the sheriff for identification: One bay horse, about 9 or 10 years old, long white strip in face, white specks on neck and shoulder, collar and saddle marks, right hind foot white nearly to the knee, left fore foot white to pastern joint, black spot on right thigh, 7 or 8 pounds [illegible] twist [illegible]; open faced watch, [illegible] Lodi, engraved inside of [illegible]; 2 pair boots, black [illegible], pants, [illegible], wagon cover, saddle [illegible] or drawing line, etc. It is rumored here that the horse is wanted in Linn county, or [illegible] where on the Santiam."

THE DEMOCRATIC REFORM PLATFORM.

Some latitude may be allowed to political conventions in setting forth the delinquencies of the adverse party, and especially to Democratic conventions which have nothing else on which to base their demand to have the government handed over to the party they represent. Considerable exaggeration would, therefore, be overlooked in the St. Louis platform. But when one finds the convention solemnly arraigning the Republican party for having since the war "taken from the people in frauds ten times the whole amount of the legal tender notes, and squandered four times the sum in useless expense," one is apt to think the manufacturers of the platform were addicted to rhetoric more than to truth and more even than the license of a hard-pressed political organization could justify. Let us make a calculation, taking this charge of the St. Louis convention for a basis. The legal tender notes amount to about $370,000,000. Ten times that amount—"taken from the people in frauds," to quote again the language of the convention—would be $3,750,000,000. Then four times the amount of the legal tenders—the sum alleged to have been squandered in "useless expense"—would make $1,480,000,000. These two sums added together show the total amount set over to the debt side of the account against the Republicans to be $5,230,000,000. This is in the neighborhood of *two and half times the entire public debt of the nation.* Taking the reports of the Secretary of the Treasury, and ascertaining the revenues of the country during the same period, it will be found that the amount of money wasted has been just about equal to *all the receipts from every source.* We submit that this is "coming it strong," even for a Democratic convention.

It will not be denied by any person at all conversant with the facts that extravagance and corruption have become so prevalent as to be a cause for general complaint, if not for alarm; but any person sufficiently informed in the premises to know this fact, must also be aware that in proportion to the volume of business devolving on the government since the close of the Democratic war, and notwithstanding the effect of that war in demoralizing the political morals of the country, the amount of money squandered has been much less than during either of the two Democratic administrations immediately preceding the war. The administration of the government does indeed stand in need of reformation. So pressing is this need that thinking people are coming to the conclusion that if there is not some change for the better, if the tendencies of the last four years are to be allowed to go on for four or eight years, there is danger that the government will become as corrupt as it was under Democratic rule. This culmination, it is hoped, will be prevented by the replacing of President Grant with a man who has fewer relatives, and whose associates and advisers are not from the club-room, the race-course, and the Democratic party. Governor Hayes has been nominated by the Republicans as a recognition of the justice of the demand for administrative reform and for a higher moral tone in public affairs. It is intended that the government shall be actually as well as nominally in the hands of Republicans, instead of being run by broken-down Democratic politicians for purposes of self. The people, remembering the too recent rule of Democracy and the unparalleled corruptions of that rule, are not going to accept without challenge the statements of Democratic conventions concerning the amount of extravagance and fraud in the government; nor will they read those statements without instituting a comparison between the Republican and the Democratic administrations in the matter of public extravagance and corruption. Until the history of Pierce's and Buchanan's administrations shall have been effaced from the memory of the nation, the Democracy would exhibit commendable prudence by saying as little as possible to attract attention to the subject of national economy or honesty of administration. The Republicans can afford to ask that the government be restored to Republican hands and Republican methods; but the Democracy cannot make such a demand till they have first shown that they themselves have turned their backs upon the manners and methods which mainly distinguished them when they were last in power. Nor is their claim to be regarded as the party of reform strengthened by their opening up the campaign with an exaggeration so gross and glaring as to be better characterized as a bald and reckless falsehood.

DISINFECT.

As the water leaves the streets and stagnates in the blocks that are lower than the grade, the city is filled with offensive odors and malarial exhalations. Sickness will follow unless something be done to prevent it. There should be a thorough course of disinfection in the district lately inundated. Phosphate of lime should be used unsparingly in cellars and gutters and sewers. Some are taking this precaution, but it will be of little avail if not done generally. Those who take pains to neutralize the effect of malaria arising on their own premises will be equally in danger with those who do not, so long as their neighbors allow their grounds to remain covered with putrefying substances, with no neutralizing agency to prevent its generating disease. This is a matter to which the Common Council should give attention. It is as much in the power, and as much the duty, of the Council to make compulsory regulations on this subject, as it is to make such regulations to protect the people of the city against contagious diseases. Those who reside permanently in the region of the overflow are in more real danger to-day from the masses of putrid vegetation and fecal matter thus set free than they ever were from smallpox in the city. Persons temporarily in the city are, of course, safe enough, but vigorous measures should be adopted for the protection of those who, by reason of constant proximity to the source of malarial diseases are in constant danger.

The nomination of Gov. Tilden ought to put an end to the Democratic professions of especial regard for the interests of the agricultural classes. Tilden has been long one of the pillars of the corporative power in the United States, and is himself largely interested in some of the great corporate monopolies. If the people of the West mean to carry on their opposition to the monopolies they will hardly give their support to Tilden.

Dorman B Eaton, one of the civil service commissioners whom President Grant drove out of his position by breaking down the entire movement for civil service reform, expresses the opinion that the Cincinnati platform and nominations give ample assurance that the Republican party does not intend to abandon the efforts to build up a better civil service. He thinks all reform Republicans should give them a hearty support.

The Cincinnati *Commercial*, the leading independent paper of the West says: As a candidate, Gov Hayes will improve upon acquaintance. He's a man without a large development of nonsense. He is a symmetrical man—not a giant, but of good dimensions for reasonable service.

The *World* thinks "the Democratic party is to be pledged next November, not by any promises of the future." Then, we suppose, it is to be judged by its record in the past. That certainly is not a very cheering prospect for the Democracy.

The New York *Herald* says "the Democratic party has peculiar relations toward the country." We concur. It can hardly be supposed the country will hand itself over to a party which has such peculiar relations "toward" it.

A Democratic exchange urges the people to look at the Republican party by the "lamp of experience." The country has already seen enough of the Democratic party by the lamp of a most bitter experience.

It is a happy thing for President Grant as well as for the country that his term of office is drawing to a close. It has already got to such a pass that first class men decline his offers of places in the Cabinet.

THE SEA-SIDE HOUSE,

CLATSOP BEACH,

IS NOW OPEN FOR THE RECEPTION OF VISITORS.

J. C. OLMSTED.

BAY VIEW HOUSE,

BAKER'S BAY, CHITY, W. T.

MR. DEXTER INFORMS THE PUBLIC that his House is now open for the reception of guests. Its advantages in every respect over any other summer Resort are too well known to Oregonians to repeat here. To strangers I will say that the place is in plain sight and across the Bay from Astoria on the sheltered side of Cape Hancock, and very near and adjacent to the Fort and Lighthouse, on Baker's Bay, a beautiful sheet of water, unequaled for Sailing, Rowing, Fishing and Bathing. The dark forest with its picturesque drives, its mountain springs, profusion of wild berries, wild flowers and ferns, the horse trail to the Cape for Equestrians or walkers, is one of the most delightful Panoramas to the eye ever witnessed. The cosy beaches, its caves, luxuriantly wooded Island, its views of Astoria, Chinook, Fort Stevens, moist old Tillamook, in the blue distance.

The courteous hospitality of the officers of the Garrison at the Fort, and also of Mr. Munson and family, of the Lighthouse, make that place well worthy of a visit.

The salt Water Bathing in the bay, within a few feet of the hotel, excels anything far or near, for warmth of the water and mildness of its waves, far preferable to the heavy surf and cold winds for women, children and invalids, while the sturdy swimmer or those who love the foaming surf, in a few minutes walk will find a beach unsurpassed in beauty, hard and level for one continuous drive of thirty miles. At this end are huge rocks stretching out into the ocean, from which fishers take from the sea, Bass, Rockfish, Tom Cod, Porgies, etc., etc. Crabs, Clams, Oysters, &c., in abundance, (and the Table will never lack a sufficiency of those desirable adjuncts.) Boats upon the Bay, Saddle Ponies for the children, Teams to the Weather Beach, Croquet, Swings, Quoits, etc., FREE to Guests.

Prices reduced from the old tariff.

To those who would like to camp out, wood and water and use of ground free. Groceries, provisions, milk, eggs, butter, etc., for sale at a small profit. Campers can board at the Hotel if they prefer, at fair rates. A large Livery stable, two new and fine Ten Pin Alleys, attached to the place.

Stage Office to Oysterville, Postoffice, Wells, Fargo & Co's office also there. No raw winds or damp fogs, and more beautiful tracks and shady groves cannot be found. The only regret the Landlord has, is that his house is not larger, but his grounds are large enough and beautiful enough to warrant next season a Hotel worthy of the surroundings.

C. H. DEXTER, Proprietor.
